PALMISTRY

"The Past, the Present and the Future"

The time is near at hand when Palmistry will be taught in the Colleges and Schools. For the past 25 years CRAIG BAILEY has given all the available time at his disposal to the study of this interesting science.

He is the ONLY

Palmist who Reads by "THE BOOK"

the Bible, and whose system, before many years, will be the one generally known and practised. Remember CRAIG BAILEY is

The One Indisputable Authority

as to Biblical Palmistry.

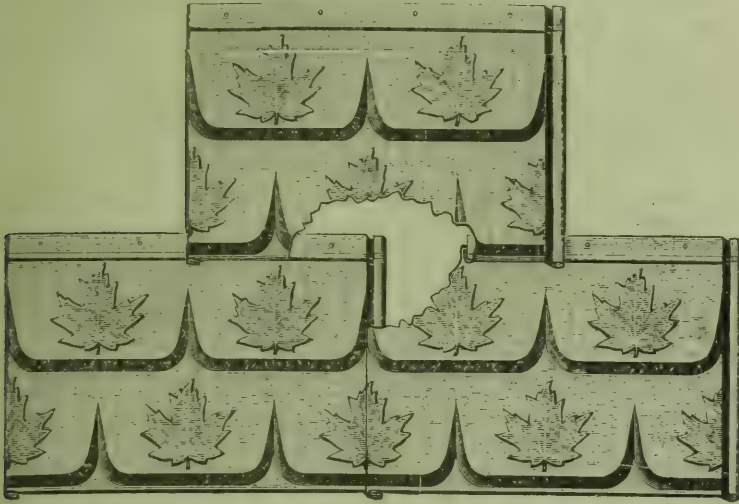

CRAIG BAILEY,

COOKSHIRE, QUE.

In this space it is impossible to enter fully into or to give a thorough explanation of the exactitude I have attained in the Knowledge of Palmistry.

After April 1st, 1909, I will be prepared to go to Montreal, or any other center of intelligence, within a reasonable distance, where a number of persons would like to organize a "Palmistry Reading," for the purpose of testing its truthfulness, as practised by the system founded on a correct understanding of the quotation at the head of this page.

"SAFE LOCK" GALVANIZED SHINGLES

THESE are the Can't-Leak, Can't-Burn Shingles

that you should use on your houses and barns. They lock absolutely on all four sides, making leakage impossible. They are heavily galvanized, and will stand the wear and tear of a generation. They give positive protection against lightning—this alone may save you thousands of dollars. They make a roof that is secure against falling sparks and cinders. :: :: ::

What is it worth to you to have a roof that is

PREFACE

The Publishers have much pleasure in presenting the "Farmers' Register of the Garden of the Eastern Townships" to its numerous patrons, and as the greatest care has been taken to make it complete and accurate in all its details, trust it will meet with their approval.

It will be noticed that its arrangement is a decided improvement on all previous works giving the same class of information.

For the first time a continuous Alphabetical Farmers' Register of each county is given, instead of, as formerly, being divided up into as many sections as there were townships and parishes in each county: for purposes of quick and easy reference the desirableness of this change is so obvious, as to at once suggest its great advantage.

Our special thanks are due to the secretary-treasurers of the municipalities, as well as to the public officials generally, for their invaluable aid in supplying the necessary information required to make the publication of a work of this description possible.

The liberal support given to the undertaking by the professional, manufacturing, and commercial interests, and the public generally, is fully appreciated.

JOHN LOVELL & SON, Limited.
